I am an adult who plays to de-stress. I love the colors, the variety of play, and the accuracy of the shooter. The best thing about the game is that there are no ads and that one doesn't feel as though you have to purchase anything to continue play. I finished this one and will now go to another version. Too bad another of the King games, in fact, one of the most popular games on the internet, isn't as transparent in its grab for in-app purchases. June 2021 The last changes to this game are not good at all! They have increased the number and length of ads to the extent that I'm considering scrapping the whole game - and it's my favorite game of all time. Even that wouldn't be so bad, but they often play the same 30 sec ads over and over to the extent that I'm actually prejudiced against the advertiser. Also, by the time I'm aware of a new contest (and I play every day), there's always at least 1 person who sits at the top of the leader board with hundreds of plays. Tell me how that happens!!! Come on, King - you're better than this! Hatch and help dragons in the best new free online bubble shooter game. Pop bubbles by matching three or more of the same color. Unlock boosts and shoot at special items to activate their powers! 0 17,548 Plays Comments The original bubble shooter game of the dragon series has acquired lots of users. That's why Bubble Dragons Saga came out quickly. Enjoy a fun marble popper game with hundreds of free bubble shooter levels. Since you are limited on moves, pay attention to the level goal. Most often you don't need to burst bubbles all across the board. Instead you might need to crack open a dragon egg, release fish or watch the barrier so that it doesn't reach the bottom. You may switch balls in the shooter, and use special orbs to achieve cope with the task. Enjoy this bubble shooter saga free online on desktop or mobile web.
